

The Group aims at continually improving its practices through a rigorous effort in implementing the **best practices of Quality, Health and Safety** as well as **Environment management system** that will contribute positively to the company's long term success and sustainability.

By pursuing the ultimate maturity level of **QHSE awareness** among all employees through effective and elaborated **QHSE policies, procedures, relevant working instructions** and other possible means

ABS & SRC are putting the ISO 9001, ISO 14001 and OHSAS 18001 standards besides other national/local legislations, common best practices as well as COLAS Group HSE guidance as the basis of the continual improvement towards the QHSE vision and mission.
